

## Adults who have ever experienced rape or attempted rape, for the State of Hawaii, for the Year(s) - 2013

**Adults who have ever experienced rape or attempted rape, by State, County, Island, Community, BRFSS Age Group, DOH Race-Ethnicity, Gender, Education Level, Employment Status (Grouped), Household Income, Poverty Level, Marital Status (Grouped), Married, Health Care Coverage, for the Year(s) - 2013**

*The trend analysis report shows the values for the selected health variable in table and graph form. Due to the addition of cell phones to the survey and changes in the weighting methodology, results from 2011 and forward cannot be trended with data from prior years. Estimated Population: This number is a weighted representation of the population who responded to a particular question in the survey. For most questions the eligible population will be the entire adult population. For some secondary questions only a subset of the population was asked the question. For example, all survey participants were asked if they had diabetes, but only those who answered yes were asked if they use insulin. If a dimension value is unknown for a particular survey record, that record will not be included in the counts for that particular dimension.*

*Below are the indicators included in this report and the long description for each indicator.*

BRFSS Health Indicator	Health Ind Desc
Adults who have ever experienced rape or attempted rape	Has anyone ever had sex with you, or attempted to have sex with you, after you said or showed that you didn't want them to or without your consent?
