

Youth Sexual Behavior, for the State of Hawaii, for State and County, for the Years 2005, 2007, 2009, 2011

Note: Weighted numbers (#), percentages and 95% confidence intervals; n/r (Not Reportable) - Represents cell size restriction based on unweighted respondents; n/a (Not Available) - Not asked of a subset of respondents

The Leading Health Indicators were developed as part of the Healthy People 2010 initiative. The Leading Health Indicators (LHI) were selected to reflect the major public health concerns in the United States. Ten indicators were chosen based upon their ability to motivate action, the availability of data to measure their progress and their relevance as broad public health issues.

This report looks at Sexual Behavior for youths:

Youths in grades 9-12 who have never had sexual intercourse. (Source: YRBS)

Youths in grades 9-12 who are sexually active and used a condom during last intercourse. (Source: YRBS)

Note: Youth data is available at the county level for 2011 only; Hawaii County data is not available for High Schools for 2011.
