

Access to Health Care, for the State of Hawaii, for State and Selected Ethnicities, for the Year 2011

Note: Weighted numbers (#), percentages and 95% confidence intervals; n/r (Not Reportable) - Represents cell size restriction based on unweighted respondents; n/a (Not Available) - Not asked of a subset of respondents

The Leading Health Indicators were developed as part of the Healthy People 2010 initiative. The Leading Health Indicators (LHI) were selected to reflect the major public health concerns in the United States. Ten indicators were chosen based upon their ability to motivate action, the availability of data to measure their progress and their relevance as broad public health issues.

This report looks at Access to Health Care:

Adults of all ages with any health care coverage. (Source: BRFSS)

Adults of all ages without a specific source of ongoing primary care. (Source: BRFSS)

Females who receive prenatal care in the first trimester. (Source: PRAMS)
