

Physical Activity - Meet Recommendations, for the State of Hawaii, for State and Selected Ethnicities, for the Year 2011

Note: Weighted numbers (#), percentages and 95% confidence intervals; n/r (Not Reportable) - Represents cell size restriction based on unweighted respondents; n/a (Not Available) - Not asked of a subset of respondents

The Leading Health Indicators were developed as part of the Healthy People 2010 initiative. The Leading Health Indicators (LHI) were selected to reflect the major public health concerns in the United States. Ten indicators were chosen based upon their ability to motivate action, the availability of data to measure their progress and their relevance as broad public health issues.

This report looks at Physical Activity for youths and adults:

*Youths in grades 6-12 who engaged in physical activity for 60 minutes or more on 5 or more of the past 7 days. (Source: YRBS)
Adults who engaged in aerobic activity 150+ minutes (or vigorous equivalent) per week and strength activity more than 2 times per week.
(Source: BRFSS)*
