

Hawai'i Health Matters

Healthy People – Healthy Communities – Healthy Islands

A one-stop source of non-biased data and information about community health in the islands, and healthy communities in general.

Compare Hawai'i's health with other communities and the nation, using more than 100 indicators.

Learn about promising practices on a variety of topics that affect community health.

Compare by Region This gauge shows how the Hawai'i (State) value compares with all counties in the state (or all US counties) in the state (or all US counties).

Compare by Average This gauge shows how the Hawai'i (State) value compares with the median or mean value for all counties in the state (or all US counties). The gauge is blue and white when being higher (or lower) is not necessarily good or bad and is multi-colored when being higher (or lower) is good or bad.

Compare by Time Period This gauge shows whether the Hawai'i (State) value is increasing or decreasing over time. Green means the indicator is moving in the right direction while red means the indicator is moving in the wrong direction.

Hawai'i Health Matters!

YOUR COMMUNITY'S HEALTH ONLINE

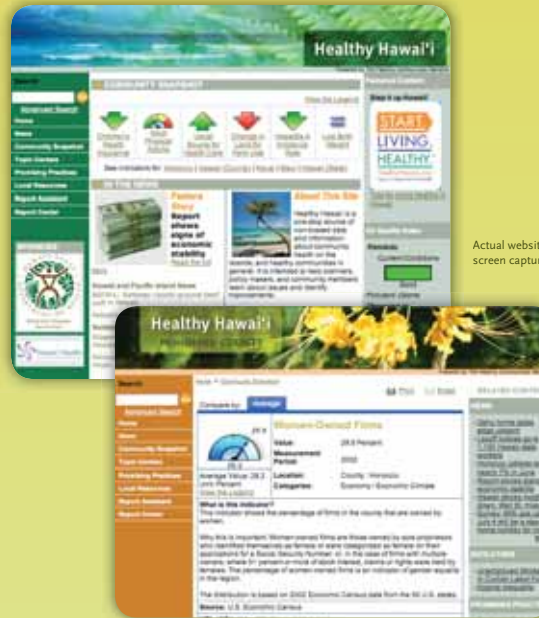

www.HawaiiHealthMatters.org

Hawai'i's Health Matters! To help keep track of our health, the Hawai'i Health Data Warehouse and the Hawai'i Department of Health in partnership with the Healthy Communities Institute developed *HawaiiHealthMatters.org*.

This website provides state and county level snapshots on health and quality of life combined with relevant local and national news articles, promising practices for interventions, links to more in-depth data tables, and local resources provided by Aloha United Way 2-1-1.

The website allows users to create custom data reports and to submit reports and promising practices for inclusion in our reference library.

Get started on Healthy Hawai'i!

Hawai'i Health Matters provides objective, benchmarked data and related resources in one convenient website *hawaiihealthmatters.org*.

News Current health related news featuring stories from national, local and Pacific Island sources.

Community Snapshot At-a-glance summaries of core indicators on health, education, economy, social environment and transportation. Each snapshot provides links to more in-depth data by state and county level.

Topic Centers Must-have information grouped by subject matter. Visit the Topic Centers to find collections of related Health Indicators, News, Local Resources, and Promising Practices.

Promising Practices A library of over 1000 new, innovative and proven strategies for community-based interventions. Users can submit promising practices and local reports for publication to the website.

Local Resources Collection of resources that support the overall improvement of a community's health. Use key words to search Aloha United Way 2-1-1 database of agencies that serve the people of Hawai'i

Report Assistant Quickly find content from the site and compile it into reports supported by tables or graphs.

Report Center Browse the repository of state reports categorized by topic areas.
