

Live Births in Hawaii by Primary C-Section

Primary Cesarean Section Counts and Percentages for the State of Hawaii (Residents Only), by State, Mother's County of Residence, and Mother's DOH Race-Ethnicity, for the Years 2000-2013

This report displays the number and percentage of births in which the mother had a cesarean section for the first time (primary C-section) for Hawaii residents. Data are shown by year, in descending order. C-section data are not available after 2013. The data are displayed by selected dimensions and attributes. If a dimension or attribute value is unknown for a particular record, that record will not be included in the counts for that particular dimension. Percentages may not add up to exactly 100 due to rounding.
