

Very Early Preterm Births in Hawaii

Very Early Preterm Birth Counts and Percentages for the State of Hawaii (Residents Only), by State, Mother's County of Residence, and Mother's DOH Race-Ethnicity, for the Years 2000-2015

This report displays the number and percentage of very early preterm births (births at less than 32 weeks of gestation) for Hawaii residents. Data are shown by year, in descending order. The data are displayed by selected dimensions and attributes. If a dimension or attribute value is unknown for a particular record, that record will not be included in the counts for that particular dimension. Percentages may not add up to exactly 100 due to rounding.
