

Post Neonatal Deaths in Hawaii by 3-Year Aggregates

Post Neonatal Death Counts and Mortality Rates for the State of Hawaii (Residents only), by State, County of Residence, Infant's DOH Race-Ethnicity, and Gender, by 3-Year Aggregates, for the Years 2001-2015

This report displays number of deaths and mortality rates for post neonates (between 28 and 364 days old). The mortality rate is the number of infant deaths per 1,000 live births. Data are shown by year, in descending order. The data are displayed by selected dimensions and attributes. If a dimension or attribute value is unknown for a particular record, that record will not be included in the counts for that particular dimension.
