

Depression & Suicidal Thoughts in Hawaii

Depression & Suicidal Thoughts in Hawaii, by School Type, State, Gender, Grade Level, and DOH Race-Ethnicity,* for the Years 2003 - 2013

*The weighted data is available for middle school for all years; high school weighted data is not available for 2001 or 2003.
Data are shown by year in descending order. Questions for certain health indicators were not asked in all years.*

Below are the indicators included in this report and the long description for each indicator.

Health Indicator	Health Indicator Description
Depression in past 12 months	Students who ever felt so sad or hopeless almost every day for two weeks or more in a row that they stopped doing some usual activities during the past 12 months
Suicide - plan, past 12 months	Students who made a plan about how they would kill themselves during the past 12 months
Suicide - thoughts, past 12 months	Students who seriously considered attempting suicide during the past 12 months
