

Secondhand Smoke in Public Places by School Type, Indicator, State, Gender, Grade level, DOH Race-Ethnicity, for the Year(s) - 2007, 2009, 2011

Note: Weighted counts, round to the nearest 100; weighted percentages; public high school and middle school data; 95% confidence interval; n/r (Not Reportable) - Unweighted respondents less than 35

The weighted data is not available for middle school for 2000 or for high school for 2003. Questions for certain health indicators were not asked in all years.

Below are the indicators included in this report and the long description of the indicators.

YTS Health Indicator	Health Indicator Description
Perception - smoking in indoor public places	Now think about indoor public places such as malls, movie theaters, clubs or restaurants. Which of these best describes what you think about smoking in indoor public places?

Secondhand Smoke in Public Places by School Type and Indicator, for the Year(s) - 2007, 2009, 2011

Note: Weighted percentages, 95% confidence interval; n/r (Not Reportable) - Unweighted respondents less than 35

High Schools

Perception - smoking in indoor public places

YTS Year	YTS Response	Percent
2007	Always be allowed in indoor public places	2.0%
	Be allowed in indoor public places but only at some times or in some areas	11.6%
	Never be allowed in indoor public areas	86.4%
YTS Year	YTS Response	Percent
2009	Always be allowed in indoor public places	2.2%
	Be allowed in indoor public places but only at some times or in some areas	10.8%
	Never be allowed in indoor public areas	87.0%
YTS Year	YTS Response	Percent
2011	Always be allowed in indoor public places	1.4%
	Be allowed in indoor public places but only at some times or in some areas	11.2%
	Never be allowed in indoor public areas	87.4%

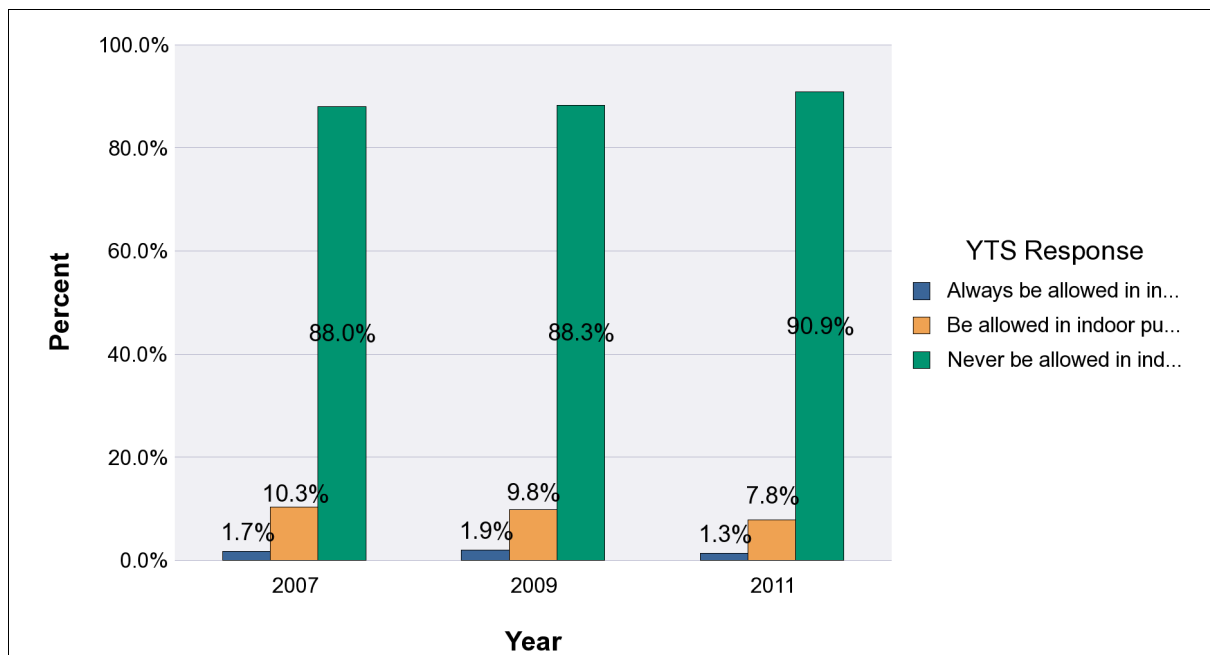

Secondhand Smoke in Public Places by School Type and Indicator, for the Year(s) - 2007, 2009, 2011

Note: Weighted percentages, 95% confidence interval; n/r (Not Reportable) - Unweighted respondents less than 35

Middle Schools

Perception - smoking in indoor public places

YTS Year	YTS Response	Percent
2007	Always be allowed in indoor public places	1.7%
	Be allowed in indoor public places but only at some times or in some areas	10.3%
	Never be allowed in indoor public areas	88.0%
YTS Year	YTS Response	Percent
2009	Always be allowed in indoor public places	1.9%
	Be allowed in indoor public places but only at some times or in some areas	9.8%
	Never be allowed in indoor public areas	88.3%
YTS Year	YTS Response	Percent
2011	Always be allowed in indoor public places	1.3%
	Be allowed in indoor public places but only at some times or in some areas	7.8%
	Never be allowed in indoor public areas	90.9%

Secondhand Smoke in Public Places by School Type, Indicator, State, Gender, Grade level, DOH Race-Ethnicity, for the Year(s) - 2007, 2009, 2011

Note: Weighted counts rounded to nearest 100, weighted percentages, 95% confidence interval; n/r (Not Reportable) - Unweighted respondents less than 35
